

## **More about Dr. Oye**

*Glory Pediatrics, LLC is led by Dr. Oyebukola Oyediran who has been a pediatrician for over 18 years.*

*I was born and raised in the Bronx, NY. I had the privilege of being raised by Nigerian parents who were both registered nurses. From them, I learned about the importance of faith, family and hard work. I loved hearing them talk about work and developed a curiosity about medicine.*

*After graduating from Cornell University, I obtained a masters degree in medical science which opened the door to attending medical school. I graduated from Drexel University College of Medicine in Philadelphia, PA. I was fortunate to be accepted into the pediatric residency program at Crozer Chester Medical Center. After completing 3 years, I remained for a 1 year chief residency.*

*In medical school, I accepted a National Health Corp scholarship designed for medical students and doctors who have committed to practicing primary care. Soon after starting school, I realized that I wanted to be in the community providing general care to its children. My first assignment was with the City of Cincinnati Health Department in Cincinnati, Ohio. After 3 years, I began my work in a busy group practice in Baltimore City, Maryland. To build skills, I've also worked in a pediatric urgent care center.*

*Now, I am back to focusing on what I truly love - primary pediatric care. Inspired by the words in 1 Peter 4:11, through my work in Glory Pediatrics, I strive to be a blessing to God and my community.*
